

Canada Code Black

Quick Start Guide

Setting Up Service

1. Get a SIM card from a GSM provider in your area. (Rogers, Bell or Telus.)
2. If you want to send to an email, make sure you add data to your plan.
3. If you want to send as text messages only, you need voice and a texting plan.

Setting Up Camera

1. Turn your camera on to the setup position.
2. Scroll to the NET tab.
3. Scroll to Download Tool and Press OK.
4. Turn the camera off and put the SD card in your computer.
5. Run the Covert Setup and Enter Personal Information.

IMPORTANT NOTE: Make sure you press the three dots at bottom right and save the information back to the SD card.
