PRODUCT DESCRIPTION

The Scent Crusher +Plus is designed and tested to specifically inactivate virus including the coronavirus, SARS COV-2, that causes COVID-19 on surfaces and objects. The Scent Crusher +Plus unit can be used for disinfecting hunting gear, sporting equipment, purses, packages, mail, cell phone and all other high touch items that we use every day.

Ozone, or O₃, is a tri-atomic form of oxygen and is one of nature's most powerful oxidizers. O₃ has been used as a powerful organic cleaner for years. The Scent Crusher +Plus process is unique and different than ozone alone. We use a proprietary blend of tri-atomic oxygen, humidity, and other patented technology to achieve results proven to inactivate the coronavirus, SARS COV-2, on items.
